**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/14/2009 has been entered.

Claims 1-46 are canceled.

Claims 47-72 are newly added.

Claims 47-72 are pending in this application.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 01/14/2009 and 12/24/2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

***Response to Arguments***

3. Applicant's arguments with respect to claims 47, 62 and 71-72 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 47-72 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim(s) 47 and 62 are/is rejected under 35 U.S.C. 101 as being directed to eligible subject matter under 35 U.S.C. § 101 in view of *In Re Bilski*, 88 USPQ2d 1385. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to particular machine, or (2) transform underlying subject matter (such as an article or material) to a different state or thing (See *In Re Bilski*, 88 USPQ2d 1385; see also *Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 473 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780, 787-88 (1976)); The instant claims are neither positively tied to a particular machine that accomplishes the claimed method steps nor transform underlying subject matter. The method/process claimed is broad enough that the claim could be completely performed mentally, verbally or without a machine nor is any transformation apparent; Therefore, the claimed invention is directed to non-statutory subject matter.

Claims 71-72 recites a merchant server and a merchant system which does not include any type of hardware such as processor or memory to constitute a machine as define in 35 U.S.C 101. Such claimed limitations in claims 71-72 are modules which are

components or instructions of software. Software per se is not a series of steps or acts and thus is not a process. Software per se is not a physical article or object and as such is not a machine or manufacture. Software per se is not a combination of substances and therefore is not a composition of matter.
